MILLENNIUM MEMO

It was fun seeing the 40 or so residents who came to the June 4 PEWRA meeting – and being reminded yet again what an amazing place Palomar West is. I don't remember your homesites ever looking better. Great job, everyone.

I also hadn't seen the Activity Board in front of the Clubhouse before. Not only is it fun to see, but it's a reminder of just how many things you have to choose from.

At the meeting, I reported that during our 21 years of ownership, we've spent \$3.1M on upgrades...and will add another \$650K in the upcoming 12 months. Here's a partial list:

- Storm Drain Repairs/Shore up Hillside--\$400K (!).
- "Slip Line" other drains--\$152K.
- Driveways, Clubhouse Sidewalk, Retaining Walls--\$41K.
- Pickleball Wind Screens--\$5K.

That's about \$600K just for those 4 projects. The good news: we think we have a good plan to stabilize the hill, repair the Storm Drain and save the Laundry Building.

That "slip line" item involves inserting a rubber-like balloon, which when inflated, becomes the new storm drain (replacing the existing metal), and is guaranteed for 50 years. None of this is cheap, so we won't do many discretionary projects this year.

We're also budgeting \$220K for Landscaping & Tree Trimming. I asked Felipe how many trees he's had to deal with this year. His answer: "I don't know, actually. I never kept a log."

Thanks again for attending, and for doing your part to enhance your beautiful Park.

More News

- At the meeting, I was told that we already had 321 Income Certs, after only a few days. Way to go! Your Certs are helping cover the cost of saving the hillsides, and you saved us the unpleasant job of hassling you for the Certs.
- Lisa is giving this month's Kudo to Herlinda Mahler (Sp. 267), "for the hours she spends changing out the gallery in the Pavilion every month." Thanks, Herlinda!
- Please welcome Jason Hernandez & Neal Haley to the Park Staff. They both bring years of experience in landscaping, painting, repairs, pool/spa...Felipe is very happy to have them.

Have a fun 4th of July, or as they call it in Britain, "Ungrateful Colonists Day."

George Turk

From the PEW Residents Board

RULES RULES RULES

PEW has rules for our homes, yards, cars, and pets. We have additional rules for our activities; pickleball, the gym, the pool and the spa. Rules can be frustrating and overwhelming, but we as adults we are expected to follow them. This is an effort to maintain a safe and comfortable environment for all of us as well as avoid unwanted problems with non-residents or strangers. None of us are immune from the rules regardless of the length of tenancy or position in the community. No ONE in our community is special, WE all are!

If you are not familiar with all the rules, pick up a copy at the office. Please also pay attention to posted signs in the activity areas. This may help you determine if the guy in the hot tub is in fact breaking a rule.

Let's keep PEW the great neighborhood that it is. If you see any infraction, please report it to the management or a board member. Pictures are helpful, if you are able.

Thanks to Lisa Hamernick and Gayle Plant as well as weekend manager Doug Tickner for all they do. More thanks go to Felipe Diaz and his crew for maintaining a beautiful and safe home for us.

Garry Larson
VP

Why we celebrate July 4th.

July 4th is celebrated in the United States as Independence Day because it marks the day when the Continental Congress adopted the Declaration of Independence in 1776, which declared the 13 American colonies free and independent from British rule.

The Declaration of Independence was written primarily by Thomas Jefferson and was signed by representatives from all 13 colonies. It was a pivotal moment in American history and marked the beginning of a long and difficult struggle for independence.

The document outlined the grievances of the American colonists against British rule, including the imposition of taxes without representation, the quartering of troops in private homes, and the denial of basic rights and freedoms. It also asserted that all men are created equal and are entitled to certain **inalienable rights, including life, liberty, and the pursuit of happiness.**

The signing of the Declaration of Independence was a critical step in the American Revolution and set the stage for the formation of a new nation. It is celebrated every year on July 4th as a reminder of the country's hard-won freedom and the enduring principles of democracy and self-government that were established by the Founding Fathers.

The idea of celebrating Independence Day dates back to the first anniversary of the Declaration of Independence in 1777. The celebration included parades, fireworks, and public readings of the Declaration. However, it wasn't until 1870 that July 4th was declared a federal holiday, giving all workers a day off to celebrate.

Over the years, the 4th of July has become a significant holiday in American culture, marked by fireworks, parades, barbecues, and family gatherings. The festivities typically include patriotic displays, such as the waving of the American flag, and the singing of patriotic songs like "The Star-Spangled Banner."

The 4th of July has also been a time for political speeches and events, including the famous speech by President Calvin Coolidge in 1926, in which he spoke about the importance of preserving the principles of the Declaration of Independence.

In recent years, the holiday has also been marked by controversy, with some arguing that the celebration overlooks the country's troubled history of slavery, racism, and discrimination. Nevertheless, the 4th of July remains an important holiday for many Americans, representing a celebration of freedom and independence.

Don't be that guy!

How to keep your summer

BBQ

FROM GOING UP IN FLAMES

-  Keep your grill clean by removing grease or fat buildup from the grill and the tray below the grill.
-  Never leave your grill unattended. Keep children and pets at least three feet away from the grill area.
-  Keep your grill placed away from the home, deck railings and out from under eaves and overhanging branches.
-  If using charcoal, let the coals completely cool before disposing in a metal container.
-  If using propane, check the gas tank hose for leaks before using it for the first time each year.
-  If you smell gas while cooking, immediately get away from the grill and call the fire department.
-  If the flame goes out, turn the grill and gas off and wait at least 15 minutes before re-lighting it.

RESIDENTS ASSOCIATION BOARD

B R E A K F A S T

July is hammocks, fireworks, vacations, hot and steamy weather, cool and refreshing swims, beach picnics, and for some, “vegetables all out of their garden.”

Doesn't that sound “just about right”?

So, while that thought fills your day with calmness, make it a point to join us for breakfast, to keeping that thought as pure enjoyment that it's “our turn” to cook for you.

Saturday, July 6th 8:30 am

We hope to see all of you

Mikkie

Quote: *Just be you because you are unique, worthy, and amazing. Live every day to the fullest, as you have worked so hard to get here!*

Let's Dine Out

They love us at Panda Garden and we can't wait to go back! Join us for some delicious Chinese food with friends and neighbors.

Where: Panda Garden San Marcos

742 S Rancho Santa Fe Road, next to CVS Pharmacy.

When: Monday, July 8th 5:00 p.m.

Enjoy open menu and separate checks.

Please call or text Linda Kerridge at 858-776-6783 to reserve your seat.
Let me know if you need a ride.

Come One and All

Come to the clubhouse on Friday nights

Bring your neighbors or come meet your neighbors

EVERYONE IS WELCOME

Social Hour on the 3rd Friday, 7/19, starting at 5 PM

**The July Social Hour will include Craigs Band
and be separate from Game Night on 7/19**

Game Night on Fridays, starting at 6 PM

Come play cards or domino games

Or bring a game you want to share/teach (Yahtzee, Uno, Scrabble, ??)

Bring your own beverage. If you would like to bring a snack to share, that is great also.

Submitted by Linda Kerridge and the Social Connection

Cooking With Katie

Come join us to learn about ways you can cook healthy and delicious meals on a reasonable budget!

Date: Tuesday July 16th

Time: 4pm-5:30pm

Location: Palomar West Clubhouse

Demo: Summer Salads

Sign up at the clubhouse to get a spot for this free, tasty class! Sign-up List goes up on 1st of each month. Class max of 25

PEW Book Club

Greetings from the Book Club

In June we read and discussed "The Girl Who Wrote in Silk" by Kelli Estes.

July's book is "The Women" by Kristen Hannah.

The Book Club meets the 4th Friday of every month in the Multi-Purpose Room at 2 pm. We would love you to join us!

Happy Reading!

Cynthia (Cindy) Towle
503-317-3544
towlecandr@gmail.com

"I cannot live without books..." Thomas Jefferson to John Adams June 10, 1815

PEW Garden Club

Welcome to June gloom, I must say gardening in the morning is much more pleasant with a little overcast. I can get overheated in the hot sun of the afternoon sometimes. To help us garden better we received some great informational tools to add to our gardening toolbox from our master gardener guest speaker. **Master Gardener Dawn Standke** gave a wonderful, entertaining, and informative presentation regarding horticultural myths.

Some of the myths she dispelled are:

Myth #1 – Banana peels are okay for feeding worms, but are not good for feeding the soil. Our soil has plenty of potassium and the breaking down of the peels pulls nitrogen from the soil which our soil is deficient in.

Myth #2 – Salt and household vinegar kill the tops of the weeds, not the roots. Commercial vinegar is the best for getting at the roots plus salt sterilizes the soil.

Myth #3 – Copper nails do not kill trees, but a copper band around your pots can create a barrier snails won't cross.

Myth #4 – Eggshells do not add calcium to the soil, at least not in a form plants can absorb.

Once again we were treated with tasty goodies during our meeting. They were very refreshing, thank you **Robert and Mary**.

Additional garden plots - I made a presentation to the board about adding 6 additional garden plots. The request was well received and will be forwarded to upper level management for review. From all indications it all hinges on this year's budget constraints.

The May 30th Field Trip and lunch at Roger's Gardens in Corona Del Mar was a huge success. There was a wide variety of "things" to buy in a Turkish bazaar type atmosphere with many shops selling great items for your garden needs and a scrumptious lunch at the Farmhouse restaurant. We had 13 garden club members attend. Thanks to **Shevaun** for setting it up!!

Monday July 1st will be our next meeting at 2pm.

Thursday July 4th – Community garden street party.

Second Saturday of each month – Free mulch from San Pasqual Valley Soils

“The purpose of art is washing the dust of daily life off our souls.”

Picasso

Happy gardening,
Merlin Chancellor

Why Do We Get Flies When It's Hot?

By Herb Field, Forensic Entomologist

I'm receiving calls and emails regarding why are there so many flies and what can I do to get rid of them?

As a precursor to this discussion, you need to know that there are dozens of common fly species that we have in Lake San Marcos, but the most common and the one that we complain about most often is the Housefly, Musca domestica L. The common housefly is a global pest of humans and animals that carries scores of pathogens and costs up to one billion dollars per year in the United States alone. Houseflies do not bite as they have sponging/lapping mouthparts. Imagine a fly with a kitchen sponge as its mouthparts. The sponge soaks up moist organic material then draws the sponge into a device that squeezes all the wet material into its gut. When a housefly land on dry organic material it throws up the contents of its gut then it begins to lap up the mixture it created. It is easy to understand with that graphic image how diseases are spread. It's actually more disgusting than it sounds!

The biology of the housefly is interesting and it is the reason why they are so abundant during hotter weather. The average life span of a wild fly is 1-6 days. When it's hot and humid the lifespan is shorter so the time between birth and egg-laying is shorter, therefore you have more flies in less time. The average female lays between 100-150 eggs, imagine for a moment that the female is laying eggs 1-2 days after birth because the temperatures are exceeding 85 degrees Fahrenheit. So, during a heatwave that lasts 5 days if we had on day one a female that can lay eggs on that first day by the end of the 5 days, we would potential have over 25,000 houseflies! Under normal weather conditions it would take many weeks reach 25,000. So, heat and humidity play a huge role in the accelerated reproduction of flies.

Control methodology varies from simple physical control such as tightly sealed garbage bags to chemical control. Chemical control can be accomplished using wettable powders inside the garbage can so when a fly lands on the surface it picks up a lethal dose. Other chemical controls include a product call "Fly Spot", this material has an attractant specifically for the family of flies that includes the common housefly. The material attracts the fly to land on it and consumes a lethal dose and within a day or so you will see a pile of dead flies under area where you applied the product.

Before I close, I have to mention our infamous Chironomid midge, which is another fly species in the family of Diptera meaning two-wings. As summer warms up, we not only get an influx of the common housefly but with warmer ambient air temperatures we see raising water temperatures. This is important because as water temps rise the breeding time frame of the midge shortens, so what may have taken a week to go from egg to adult now happens in just a few days. The result is millions of midges being released in a much shorter period of time. Research shows that in the shallow areas near the lake shore that in one square meter of submerged soil more than 10,000 midges can emerge! If you live along the lake there are a few things that you can do to lessen their presence in your home. One, replace all exterior light bulbs with "bug light" bulbs, midges are not attracted to the alternate bulbs. Two, check that all screens on doors and windows are in good shape.

Hopefully this answers the many questions I've recently received regarding flies.

If you have any other questions, please contact me at entomologyservices@gmail.com

The PEW 4th of July Car Parade

July 4th 12:00 – 12:30PM

Prizes for best decorated vehicles
\$30.00, \$20.00 and \$10.00

Competitors: No Sign up - just be at the clubhouse by 11:30 for 12:00 start. There will be judges along the route.

Everyone else: be on your porch, deck, driveway from around 12:00. We will try to drive down every street, but cul-de-sacs are not possible (20 vehicles driven by us lot, trying to turn around - what could go wrong!)

For more information call Rusty - 619 301 9551

The Social Connection Presents

and
BOOM!**

FOURTH OF JULY CELEBRATION

Thursday, July 4 at Bradley Park
Entertainment begins 6 p.m. | Fireworks begin 9 p.m.

San Marcos hosts one of the most spirited 4th of July Celebrations in North County. This year's festivities will include carnival games, jumpers and food sales on-site. Guests should plan to bring beach chairs or blankets for lawn seating. The fireworks display is fully funded by charitable donations. Please visit, <https://tinyurl.com/SMFireworks2024> if you would like to help support the show.

LIVE MUSIC | KID'S ZONE | FIREWORKS

**FOUR-GENERATIONS OF PEW ARTISTS:
GRANDMOTHER (“GAGA”), MOTHER, DAUGHTER & SON!**

The new exhibit at the Clubhouse Gallery features Kylee McDowell and her family. Cathy & Rusty Bassett hosted a lovely surprise reception for the artist and her son, Daniel, on Friday evening, June 7th.
